Telugu

## Experience

I'm a Fresher and I do some Projects and see my projects below.

### My E-commerce Project

Developed a modern e-commerce website utilizing ReactJS, delivering a seamless and intuitive shopping experience for users. Leveraged React's component-based architecture to build reusable UI elements, resulting in streamlined development and maintenance workflows. Employed responsive design principles and CSS frameworks such as Bootstrap to optimize the site for various devices, improving accessibility and user engagement. Demonstrated proficiency in JavaScript ES6+ features, including asynchronous programming and functional programming paradigms, to create dynamic and interactive user interfaces. ### Creating Gym Site

I'm created beautiful animation Morden gym website with using Html, CSS3, JavaScript. Mainly I am using react framework. Using frameworks are react and Bootstrap. But This site is not responsive. I applied animations. Link: <https://gymbuildyourbody.netlify.app/>

### Creating Morden ChatBot

Designed and developed a cutting-edge Modern ChatBot application using ReactJS, offering a responsive and interactive user experience across various devices. Employed modern CSS techniques and media queries to ensure optimal layout and styling on desktop, tablet, and mobile devices, delivering a consistent and visually appealing user interface. Demonstrated proficiency in frontend development best practices, including code optimization, performance tuning, and accessibility standards compliance, to deliver a high-quality and polished chatbot solution.
